```

```
classic@Steel:~/plvision$ cat ~/.ssh/id_rsa.pub
```

```
##### VIM
```

```
classic@Steel:~/plvision$ vim text.txt  
<KEY INSERT>
```

```
I'm telling the wrong lies,  
they are not even useful.
```

```
The right lies would at least  
<type text> this line looks suspicious  
be keys, they would open the <type word> Double door.
```

```
The door is closed; the chairs,  
<END, type tetx "fff"> the tables, the steel bowl, myself
```

```
<ESC, dd>shaping bread in the kitchen, wait  
outside it.
```

```
<ESC, Shift+:, wq>
```

```
classic@Steel:~/plvision$ cat text.txt
```
